ADHESIVE-BACKED NEEDLE-PUNCHED MATTING

Holds its place. Takes the traffic. Comes up clean.

Needle-punched floor matting in four constructions — adhesive or non-adhesive — engineered to hold position under foot, trolley and forklift traffic, then lift away cleanly at the end of its service life.

Shown in dark grey · custom colours on MOQ

Holds position
Resists shifting, rippling and bunching under feet, trolleys and forklifts.

Flush, low profile
Lies tight to the floor so wheels and walkers pass over without catching.

Captures liquid & grit
Dense needle-punched fibre holds drips, track-in and debris at floor level.

Clean removal
Designed to lift away cleanly when spent — no scraping, minimal downtime.

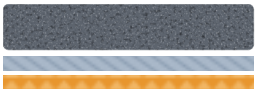
FOUR CONSTRUCTIONS — CHOOSE YOUR BACKING

ONE SUBSTRATE · FOUR BACKINGS

ADHESIVE POLY FILM

Adhesive-coated poly-film backing — a secure floor bond with a liquid-proof barrier.

ADHESIVE PP SPUNBOND



Adhesive-coated PP-spunbond backing — a secure bond on a tough, flexible base.

POLY FILM, NO ADHESIVE

Poly-film backing without adhesive — lies flat as a liquid barrier and repositions freely.

NO BACKING

Plain needle-punched absorbent — for lining, wiping and general-purpose coverage.

Needle-punched fabric · Poly film · PP spunbond · Adhesive

SUBSTRATE: 100% PET or 100% PP — the polymer is selected to match your traffic, liquids, heat and UV exposure.

APPLICATIONS

Built for hard floors that work hard.

One matting platform for retail, industrial and site use — wherever liquid, grit and traffic meet.

Runner along a supermarket produce aisle

COMMERCIAL & RETAIL TRAFFIC

- Entrances, lobbies & vestibules
- Supermarket produce, floral & freezer lines
- Food service — bars, sinks & beverage stations
- Healthcare corridors & pharmacies
- Restrooms & under hand dryers
- Transitions between floor types

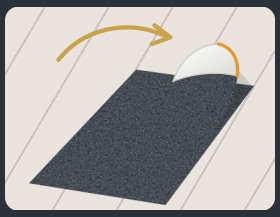
INDUSTRIAL & MAINTENANCE

- Production walkways & work cells
- Service bays & under vehicles
- Tool cribs, benches & counters
- Under machines, lathes & coolant zones
- Loading docks, ramps & forklift routes
- Aircraft hangars & marine workshops

CONSTRUCTION, EVENTS & SEASONAL

- Floor protection during renovation & painting
- Trade shows, exhibitions & events
- Winter track-in — snow, slush & de-icing salt
- Stairs, ramps & high-pitch walkways
- Temporary spill runners, laid in minutes
- Move-ins, fit-outs & festival flooring

Entrance runner for wet-weather track-in



SERVICE LIFE, THEN CLEAN REMOVAL.

When a run of matting reaches the end of its service life, it is designed to lift away in one piece — no scraping, no grinding, and no long floor closures. Lay a fresh lane and carry on.

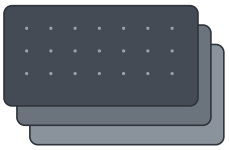
Good practice: apply to clean, dry, sound hard floors; test a small area first over painted or freshly coated surfaces.

FIT IT YOUR WAY

Your size. Your spec. Your brand.

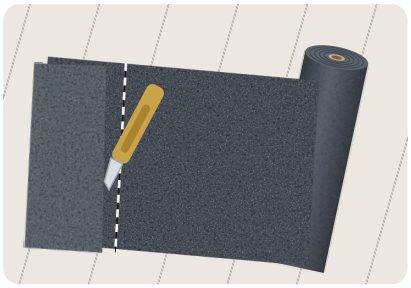
ROLLS

Continuous runs, any length



PRE-CUT MATS

Ready to place, sized to order



CUT TO LENGTH

Unperforated — cuts cleanly with a utility knife

Dark grey — standard colour

Custom colours on MOQ

Boxes or polybags — your choice

FORMAT	BACKING VARIANTS	SUBSTRATE	COLOUR	PACKING
Rolls	Adhesive poly film · adhesive PP spunbond · poly film (no adhesive) · no backing	100% PET or 100% PP	Dark grey · custom (MOQ)	Boxes or polybags
Pre-cut mats	Adhesive poly film · adhesive PP spunbond · poly film (no adhesive) · no backing	100% PET or 100% PP	Dark grey · custom (MOQ)	Boxes or polybags

OEM · PRIVATE LABEL

We manufacture. You brand.

- Supplied under your branding — product, label and packaging
- Substrate, backing, sizes, colour and pack format to your spec
- Consistent OEM supply, export-ready in FCL volumes worldwide

YOUR BRAND HERE

In-house nonwoven manufacturing
Needle-punched in India, run to your order.

Export-ready, worldwide
FCL supply & private label for global distributors.

Built to specification
Substrate, backing, sizes, colour & packing.

Tell us your floor, your traffic and your volumes — we will engineer the mat around them.
