

ADHESIVE-BACKED NEEDLE-PUNCHED MATTING

Bonds to the floor. Lifts without a trace. Walk on. Drive on.

Needle-punched matting in four builds — adhesive or non-adhesive — that stays where you place it through foot, cart and forklift traffic, then peels away clean with no residue.

Dark grey — the industry standard

Stays flat, stays put

No shifting, rippling or bunching — under feet, carts and forklifts.

Low profile, no trip

Sits tight to the floor; wheels and walkers roll straight over.

Traps liquid & grime

Needle-punched fibre captures drips, track-in and grit at floor level.

Lifts clean

Peels away when spent — no residue, no damage, no scraping.

FOUR BUILDS — PICK YOUR BOND

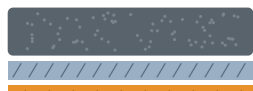

ONE SUBSTRATE · FOUR BACKINGS

ADHESIVE POLY FILM

Adhesive-coated poly-film backing — full stay-put bond plus a liquid-proof barrier.

ADHESIVE PP SPUNBOND

Adhesive-coated PP-spunbond backing — bonds down with a tough, flexible spunbond base.

POLY FILM, NO ADHESIVE

Poly-film backing without adhesive — lay-flat liquid barrier, free to reposition.

NO BACKING

Plain needle-punched absorbent — lining, wiping and general-purpose coverage.

Needle-punched fabric
 Poly film
 PP spunbond
 Adhesive

SUBSTRATE: 100% PET or 100% PP — the polymer is selected to match your traffic, liquids, heat and UV exposure.

APPLICATIONS

Every hard floor with a problem.

One matting platform across retail, industry and site work — placed where liquid, grit and traffic meet.

Continuous runner along a refrigerated aisle

COMMERCIAL & RETAIL TRAFFIC

- ✓ Entrances, lobbies & vestibules
- ✓ Supermarket produce, floral & freezer lines
- ✓ Food service — bars, sinks & beverage stations
- ✓ Healthcare corridors & pharmacies
- ✓ Restrooms & under hand dryers
- ✓ Transitions between floor types

INDUSTRIAL & MAINTENANCE

- ✓ Production walkways & work cells
- ✓ Service bays & under vehicles
- ✓ Tool cribs, benches & counters
- ✓ Under machines, lathes & coolant zones
- ✓ Loading docks, ramps & forklift routes
- ✓ Aircraft hangars & marine workshops

CONSTRUCTION, EVENTS & SEASONAL

- ✓ Floor protection during renovation & painting
- ✓ Trade shows, exhibitions & events
- ✓ Winter track-in — snow, slush & de-icing salt
- ✓ Stairs, ramps & high-pitch walkways
- ✓ Temporary spill runners, laid in minutes
- ✓ Move-ins, fit-outs & festival flooring

Winter entrance — track-in stopped at the door

DOWN FOR MONTHS. GONE IN MINUTES.

When the mat has done its job, it peels away in one piece and leaves nothing behind — no residue, no marks, no scraping. Replace a lane in minutes without closing the floor.

Good practice: apply to clean, dry, sound hard floors; test a small area first over painted or freshly coated surfaces.

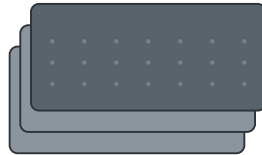

— FIT IT YOUR WAY

Cut it. Place it. Brand it.

ROLLS

Continuous runs, any length

PRE-CUT MATS

Ready-to-place, sized to order

CUT TO LENGTH

Unperforated — knife-cuts cleanly

Dark grey — industry standard

Custom colours on MOQ
